

Crosspointe Christian Academy Music Procedures

Music activities will be available at Crosspointe Christian Academy. If your child has been checked in to Crosspointe for the day, they will be allowed to participate in the music activities assigned for them that day. Below is our procedures we will be following for these events.

Music Lessons

1. Students are required to wear a mask in the hallway as they are on their way to the music studio. Once they enter the studio room, they can lower their mask to play their instrument. Teachers are required to wear their masks the whole time they are with a student.
2. Every student that walks into the music studio will be asked to hand sanitize before and after their lesson.
3. Instruments, piano benches, and door handles will be sanitized after each student.
4. The student is required to get a minimum of 30 lessons in for the year. If e-learning or sick days occur, the teacher will communicate if Zoom lessons or make up lessons will be necessary.

Music Classes

1. The music teacher will go to the classroom to teach music classes in K5-6th grade.
2. The music teacher will be required to wear a mask or shield while they are teaching/singing with the class.
3. Masks will be required for the student, if they are working in small groups or a time where social distancing cannot be utilized.
4. Any instruments or items touched in class will be disinfected before the next class period.

Choir

1. Students will be required to come into the auditorium with their mask on. Once students are at their seat and class begins, they will be permitted to take their mask off. The teacher and teacher's aide are required to wear a mask or shield during the class period.
2. Students will be spread out in assigned seats safely distanced across the auditorium with only 2 classes together at a time, with high school choir being optional for 9th-12th grade.
3. If the student will be using sheet music, music will be placed in folders and available when they come into class.
4. Instruments, door handles, seats and other items touched will be sanitized after each class.
